Gadot Biochemical Industries Ltd.

Haifa, March 5, 2015
GMO mod

TO WHOM IT MAY CONCERN

We hereby declare that products listed below, supplied by **Gadot Biochemical Industries Ltd., Haifa Bay, Israel:**

Citric Acid	Tri Sodium Citrate
Mono Sodium Citrate	Tri Potassium Citrate
Tri Calcium Citrate	Tri Calcium Phosphate
Tri Magnesium Citrate	Tri Zinc Citrate
Gadozinc+	Gadomag+
Fructose	Gadocal+
Gadomag K	Gadocal Extreme
Gadocal K	

Are produced without any involvement of recombinant DNA technology.

No recombinant microorganisms or products derived from recombinant DNA technology are involved in the production of those products; no GM enzymes nor enzymes derived from GM organisms are used.

The Citric acid used in our production processes can be either purchased or produced in our production plant. The fermentation process from which this Citric acid is derived uses various carbohydrates as a carbon source that can come from Cane, Beet, Cassava and or Corn origin. GBI has full traceability and control on the source of the raw materials used in the production of its products and can verify that the source of the raw materials used in the fermentation process and the whole production process is free from any involvement of recombinant DNA technology.

Please see this declaration as a statement of compliance to the 1829/2003 and 1830/2003 EU standards

Best regards,
Gadot Biochemical Industries Ltd.
